Both

I need some advice here please.

[REDACTED], I know you have fed back on the nature of comms to [REDACTED] but she has reached out to help her to accelerate the publication of this given the current sensitivities.

I have read through the documents and the content seems sensible and needed. There are three documents, the middle one below is a suggested one for EA but maybe a Group wide message, supplemented by EA specific (and existing) policies works better?

Can we help her get this into play as our staff are part of Cross-Group Network discussions and emotions are running high. I see this sitting as an overarching message for all of Defra?

Anna/[REDACTED], I would really appreciate your thoughts as Comms and Policy leads please?

Many thanks for your help

Rob
