---

With a really big thanks to many colleagues from across DEFRA and the EA and following our catch up meeting earlier today I attach the EA comms principles which will be shared next week on the easinet and through our other channels. The principles complement those already published by DEFRA.

Because of James' personal intervention in the text I have also shared a copy with him.

A big thank you to everyone involved in turning this round promptly.

Thanks everyone and have a great weekend.

Anna
